

Arizona Silver Belt

THURSDAY, OCTOBER 13, 1898.

LOCAL NEWS.

Every citizen entitled to a vote should register. October 18 is the last day for registration.

Ladies wishing to take lessons in art embroidery, please call at Mrs. Taylor's millinery store.

Thompson & Robinson opened their saloon in the new Young building last Saturday evening, and are doing their share of business.

We were gratified to receive a call this morning from Mr. R. F. Fletcher who is out for the first time after a protracted spell of sickness.

J. J. Keegan has purchased an interest from Mr. Young in the Silver Palace saloon. It is the intention of the proprietors to refurnish the house in handsome style.

The Colorado saloon, Graf & Klie proprietors, opened last Saturday in the new Roberts building, a very desirable stand. Within two weeks they will have furnished lodgings to let.

J. L. Litter and M. L. Bradley are here to embark in the confectionery business, and will manufacture their own candies. They expect to open in the building at present occupied by Stanfield & Son.

Harry D. Tardy came up from the river on Monday and went to San Carlos Wednesday to visit his brother Eugene. Harry has been engaged to teach the Gisela school which opens November 1.

Porter W. Fleming, democratic nominee for district attorney, is making an active canvass and is meeting with much encouragement. He is capable and energetic, and if elected will fill the office creditably.

A. P. Flood has taken a position with E. F. Kellner & Co. Mrs. Flood arrived from Los Angeles last Friday. Their Globe friends are gratified to know that they have decided to again make their home here.

Prof. Lyman C. Woods has secured Parker's hall with the view of giving dances regularly through the fall and winter. Professor Woods is a master of the terpsichorean art and his dances should become popular with the best people of Globe.

Sylvester Gilman, republican nominee for the assembly, came up from his home on Monday to attend the Commercial Club social, and incidentally to fix his political fences. Mr. Gilman will return next week to begin an active canvass of the county.

P. T. Robertson returned last Friday from Graham county. During his stay in the Gila valley he took part as one of the principal speakers in a democratic meeting at Pima. Politics in Graham county are warming up and the campaign will be a lively one.

Word has been received from Edmund Keston, who left with his cattle about a month ago for western New Mexico, that he got the herd through all right with a loss of only nine head. The cattle were starving on Salt river and it was necessary to move them.

One of the most attractive public resorts in Globe is the "Pick and Drill," owned and conducted by Chas. Hillman. He is building up a good trade, among a desirable class of customers. Patrons are always assured of courteous treatment. Mr. Hillman's ad. appears in this issue.

The New Champion has a new ad. in this number of the Silver Belt. The Champion and its general proprietor, W. T. McNelly, need no introduction to the citizens of Globe, save to newcomers. The house is handsomely furnished and the bar is stocked with the choicest beverages and cigars.

The construction of Alonzo Bailey's new brick residence is progressing and the walls will soon be completed. The house will contain six rooms and be furnished with many modern conveniences. It occupies a commanding site on the hill east of Broad street, and will be the handsomest residence in Globe.

Globe Miners' Union, No. 60, have arranged to give a ball on Wednesday evening, Oct. 19, to the members of the Union and invited guests. The occasion will be the second anniversary of the organization and admission into the Western Federation of Miners, of the Globe Union, and will be cordially celebrated. The Union has a very large membership and is in a prosperous condition.

Clifford Middleton, of Troop B, Rough Riders, arrived from New York on Tuesday night. A party of his young friends met him on the road and gave him a royal welcome home. He is looking well, notwithstanding he was sick in hospitals at Montauk and New York for ten days. He says Sergeant Will Davidson is in New York, convalescent though still weak. Will Owen is critically ill, in a New Jersey hospital. S. B. Henderson traveled west with Cliff as far as Nebraska, and went to Indian Territory for a short visit, before returning to Globe.

OPENING BALL.

Attend the Grand Opening Ball at Parker Hall, Saturday, October 15th, '98. Three pieces of music. Dancing floor in fine condition. All are respectfully invited. A royal good time assured to all who attend. Everything will be done to make the dance the event of the season. Special attention paid to strangers. Refreshments served in hall. Music by Profs. Zipser, Geo. Barnette, and J. Miller.

Floor committee: Arthur Moore, Dick Barclay, and Lyman C. Woods. Prior: L. C. Woods, Manager.

COMMITTEE TO RECEIVE COL. J. F. WILSON.

At a meeting of the county democratic central committee held Oct. 11, the following named gentlemen were appointed a committee to receive Col. J. F. Wilson, candidate for congress, who is expected here on the 22nd inst: Alonzo Bailey, Chairman, E. F. Kellner, Dr. T. S. Collins, Walter G. Shanly, E. H. Cook, Dr. S. B. Claypool, Col. Lee Crandall, Wm. Rolling, Thos. Kavanaugh, Jas. H. Hamill.

AN EXCITING RUNAWAY.

Returning from the cemetery last Friday afternoon, W. H. Morris, his wife and son, Miss Nona Crawford and Frank Thomas, a young son of Hinson Thomas, met with a serious mishap near Parker's blacksmith shop. Crossing a ridge in the road the vehicle became unbalanced; and the horses took fright and ran away, dragging Mr. Morris from the seat. The carriage was turned over and the ladies and Frank Thomas were considerably bruised. Mr. Morris also received a few scratches.

The horses in their mad flight, with the front wheels attached, turned south into Broad street. At the corner of Park street they collided with a half grown burro, killing it instantly. This caused the horses to swerve and take to the sidewalk. In front of the tent store they ran into an awning post and came to grief. The post was carried away and both horses were thrown down. The chief sufferer was T. A. Pascoe who owned the rig, the carriage having been badly broken.

PERSONALS.

Hugh Conahan left Tuesday on a visit to his family in Oakland, Cal.

A. R. Young and niece, Miss Francis, left for Los Angeles this morning.

Mrs. A. Kinney went to Florence last Monday. She is expected home Saturday.

Jake Spitz, who travels for Son Brothers & Co., of San Francisco, came in Tuesday night.

E. J. Edwards, who spent a few days at the hot springs near Ft. Thomas, returned home last Saturday.

Geo. E. Miller, representing the Anglo-American Crockery & Glassware Co., of San Francisco, is in town today.

Gus Heyman, of G. Cohn & Co., wholesale liquor dealers of San Francisco, arrived Tuesday. He is always a welcome visitor.

E. H. Cook, superintendent of the United Globe Mines, went to Los Angeles on Tuesday. He expects to return next Monday.

Mrs. Philip Oates arrived from Los Angeles last Saturday for a month's visit. She is at the home of her daughter, Mrs. H. C. Hitebeck.

W. W. Brookner, of the Old Dominion Commercial company, left for Payson Wednesday morning, to visit his friend, J. W. Bradman.

Alonzo Bailey, president of the Old Dominion Commercial company, returned Sunday morning from a visit with his family in Los Angeles.

H. A. Blewitt and George Lamb arrived last Tuesday night from Sudbury, Ontario, Canada, where they were for years in the employ of a large nickel mining company. They expect to locate here.

Mrs. R. S. Macley and daughter left on Wednesday of last week for San Miguel, San Luis Obispo county, Cal. Mrs. Macley has been sick for several months, and it is hoped the change will restore her to health.

J. W. Ransom, of the firm of E. F. Kellner & Co., left last Monday for a two or three months' vacation in California, for the benefit of his health which has not been good for some time. He will visit San Francisco for a week or two and then go to the Paso Robles hot springs.

House for Sale.

A three-room brick house in block 61, two squares from the center of the town. Dimensions of lot 62x100 feet. House comparatively new, well finished, and supplied with water in pipes. Substantial brick water tower with store room and bath room, and a good windmill. A desirable home that will be sold at a fair price. For further information inquire at the

THE OLD DOMINION

Development of a Great Mining Enterprise. Remodeling and Enlarging the Works.

A GOOD RECORD IN COPPER SMELTING.

The many changes and improvements made recently in and about the works of the Old Dominion Copper Mining & Smelting company, were a revelation to us, as we had not visited the mine for some time prior to last Monday. Superintendent S. A. Parrish showed us about the premises and explained what had been accomplished in the past three months and the improvements contemplated to be made in the near future, giving us a good insight into the affairs of the company in so far as it is expedient to make them public.

SURFACE IMPROVEMENTS AROUND THE SHAFT.

The collection of unsightly buildings about the mine, an inheritance from the former owners and used by the present company until the construction of the railroad was assured, have been removed, giving more yard room which has been further enlarged by the distribution of the waste materials occasioned by extensive new developments in the mine, thus giving a much larger unobstructed area around the collar of the shaft and ample room for new buildings, together with a fair sized timber yard on a level with the top of the shaft.

A new head frame at the shaft, 60 feet high, gives opportunity for a very satisfactory present contrivance and allows for extensive new arrangements. Back of the head frame will be located a new double reel, flat rope hoist, capable of sinking 2000 feet.

The ore house has been remodeled and a very effective arrangement adopted for handling large amounts of material through an ill-adapted building, to replace which would entail large expense, as it would necessitate the building of a new tramway or car incline for transporting ores to the smelter, neither of which is deemed advisable this year.

A system of tracks from the shaft to the different buildings and yards allows rapid handling of ores, wastes and supplies.

THE NEW SHOPS.

The new shops, all under one roof, 125 feet long, are very complete and conveniently arranged. The machine shop is furnished with the very best tools, a new 27x27 in. 25 ft. planer, a 28 inch geared drill press, emery grinders, new pipe machine and new belt cutter completes a very effective equipment.

New power blowers have been placed in the blacksmith shop and in the carpenter shop, a 16 inch planer, a 20 inch variety saw and a No. 2 guising saw. A large swing saw and a heavy framing machine arranged to cut both square sets and tunnel sets complete for the present the equipment of the timber yard. Later an old saw mill will be remodeled and put in to furnish sizes needed, the supply of which has been depleted temporarily.

A new Nordberg-Corliss engine has been installed to run the crushers at a great economy over the former work done. A powerful pump for the mine.

A new cross compound condensing Nordberg-Corliss pump, with differential plungers capable of delivering 500 gallons 750 feet high, is now en route and will be installed on the 12th level of the mine, discharging through a new tunnel at the second level and down the hill to the smelter.

New warehouses are in process of construction and by the first of December the Old Dominion company will have as nicely arranged and convenient a plant at the mine as they could wish.

EXTENSIVE IMPROVEMENTS AT THE SMELTER.

At the smelter two boilers formerly used at the mine, thoroughly refitted, have been added. The old blowers and engines have been removed from the engine room to a point at the other end of the building for the purpose of installing a new Nordberg-Corliss engine, new blowers and other improved appliances. Extensive alterations will shortly be commenced in the engine room, to be followed by the installation of the machinery as soon as the railroad reaches the smelter.

SUCCESSFUL SMELTING.

The smelter is running smoothly, and the output and quality of copper is very satisfactory. In fact the Old Dominion is doing record breaking work and the management is much gratified with the results.

The company has over 300 men employed, and very capable men in all important positions.

TRANSFER OF BUSINESS.

Notice is hereby given that I have this day sold and transferred my business, conducted under the name of the Silver Palace saloon, to J. Warren Young, who assumes all obligations and will collect all accounts due me in connection with my late business.

A. R. Young, Globe, Ariz., Oct. 11, 1898.

George Atkinson, father of Mrs. T. Shields Collins, arrived Tuesday night from Los Angeles.

W. T. McNelly returned last Saturday from Geronimo, where he delivered 340 head of cattle sold to W. S. Sparks of Idaho. They are about the last of the McNelly herd and were delivered in good condition.

The new two-story brick block, fronting 50 feet on Broad street and erected by J. Warren Young and Wm. J. Roberts, is one of the most substantial and slightly buildings in town, enhancing the appearance of block 87.

There is much activity noticeable at the works of the United Globe mines, and many improvements have been made and there are others now in progress. Next week we will give the United Globe an extended write-up.

The Commercial Club social last Monday night was one of the most enjoyable entertainments ever given by that organization. With the return of cool weather interest in the club is reviving, and a number of applications for membership have recently been received.

The great register this morning contained 1120. The returns from some outside precincts not heard from and names to be added between this and next Tuesday night, will swell the total to 1200 or more. Thus far there are upwards of 800 voters registered in this precinct.

R. C. Brown returned Monday night, accompanied by his partner, George Mintz. Their printing outfit will arrive within a day or two, and they expect to get out the first number of the Globe Times on Friday of next week. Their office will be on the Pascoe old corral property on Park street.

Victor B. Bloom has received a portion of his stock of goods, and hopes to announce in next week's Silver Belt the date of his grand opening. He will carry a very complete stock of high grade clothing, men's furnishings, goods, hats and shoes. Sparks & Trojanovich are fitting up the store with handsome shelving and tables.

S. F. Emmons, one of the chiefs of the Geological Survey, spent several days here last week studying the formations of the district. He was shown every courtesy by local mining men. It is probable that the Geological Survey will do some extensive work in Arizona next year, depending largely upon Mr. Emmons' report.

Harry W. Nash, second duty sergeant of A Troop, Rough Riders, arrived home last Friday night, and received a cordial welcome. He is looking remarkably well, considering his hard service in Cuba, as evidenced by his discharge papers. Sergeant Nash was in the battles of Las Guasimas and San Juan, and the siege of Santiago, and escaped without a scratch. He pays a high tribute to the bravery and soldierly bearing of the late Capt. Bucy O'Neil who commanded A Troop. Sergeant Nash gives a very interesting account of the Santiago campaign.

The marriage of Frank O. Elvey and Miss Leila Stanfield was celebrated last Thursday evening in St. Paul's M. E. church, in the presence of the relatives of the bride and a large number of invited guests. Justice Temple officiated, tying the nuptial knot which linked the destiny of two young lives full of hope and promise. After the ceremony Mr. and Mrs. Elvey were tendered a reception at the home of the bride's sister Mrs. J. W. Harrington, where they received the congratulations of their friends. Refreshments were served, and the occasion proved very enjoyable. Many handsome and useful presents were received. The Silver Belt tendered congratulations.

PIANOS, MUSIC.

Don't buy snide pianos with beautiful exteriors but unknown to fame, and pay \$350 and more for the same when you can obtain from Redewill's Music Store for the same price, the standard high grade pianos of BEHR BROS., CHICKERING, KNABE, MASON & HAMLIN and KRANICH & BACH, \$350 up.

Fine, medium priced pianos with beautiful cases in all kinds of fancy woods at \$250 to \$300. Cheap second-class pianos at \$195, but not warranted. Easy installments. Organs, small musical instruments, music, strings, etc.

Attention is directed to the advertisement of the Department of the Interior, calling for bids for sinking a series of shafts to bedrock at the Buttes below Riverside and on Queen creek, where the government is investigating the feasibility of building restraining dams for the storage of water.

Chas. Dickson was in town on Tuesday from Gold Gulch, where James H. Pascoe, Wm. Stewart and he own a group of copper mines. There has been considerable work done on two of the claims, the Mountain Rose and Monitor, and a large body of copper opened. It is one of the most promising prospects in that part of the district.

A. Redewill, of Phoenix, dealer in musical instruments, arrived last night and will remain here for several days. Mr. Redewill, by business enterprise and honorable dealing and the liberal use of printer's ink, has built up an extensive business throughout the territory. He sells instruments on their merits and at prices which can scarcely be duplicated anywhere. Mr. Redewill has sold a number of pianos to the residents of Globe, and we have yet to hear the least complaint.

J. W. Killin was in from Richmond Basin this week. He is a good miner and one of the most nifty in Globe district, having been engaged several months driving a tunnel some 200 feet to strike the ledge in his silver mine, from which he hopes to be generously rewarded. Richmond Basin is noted for its rich silver mines, and from the time that Globe was established in 1876, has produced the white metal, aggregating \$2,000,000 or more in silver. The mines there are as yet but indifferently developed, and in the event of silver rising to 80 or 90 cents, the Basin would become a hive of industry. Leroy Kenberry and Joe Cobblehead are taking out very rich ore from their respective claims, and will soon make shipments. It is perhaps needless to remark that they are for silver and plenty of it.

POLITICAL ANNOUNCEMENTS.

For Sheriff. I hereby announce myself an Independent Candidate for Sheriff of Gila County. I have been a resident of Globe two years and of the Territory thirteen years, and believe myself qualified to fill the office of sheriff.

For Sheriff. W. B. COLLUM is the regular Republican nominee for Sheriff of Gila County. Election November 8, 1898.

For Sheriff. W. T. ARMSTRONG is the regular Democratic nominee for Sheriff of Gila County. Election November 8, 1898.

Proposals for Sinking Shafts. DEPARTMENT OF THE INTERIOR, Geological Survey, Washington, D. C., October 3, 1898. Sealed proposals, in duplicate, will be received at the office of the Director of the U. S. Geological Survey, until 12 o'clock, m. Saturday, November 6, 1898, for the sinking of wells and shafts to ascertain the depth to bedrock at a place on Gila river in Gila county, Arizona known as the Buttes, and also on Queen creek, Arizona. The right is reserved to waive defects in proposals and to reject any and all bids. Specifications and details can be had by addressing the Director, U. S. Geological Survey, Washington, D. C.
